

North American Vendor Linecard

Global Computing Components (GCC) is a provider of specialized solutions within Tech Data, the world's leading end-to-end distributor of technology products, services and solutions. GCC provides the component building blocks required to design and build differentiated solutions for the client, enterprise and data center markets. Through our subject matter expertise, we offer customers advanced partnering, supported by deep vendor relationships, business programs, agility and global reach.

Cables & Transceivers

Chelsio
Finisar
Intel
Mellanox
Myricom

Enterprise All-Flash Software-Defined Storage

Kaminario

Flash Accelerators

Micron
Seagate

Graphics

AMD ProGraphics

Hard Disk Drives

Seagate
Toshiba

Host Bus & RAID Adapters

Broadcom (formerly LSI)

Memory

Crucial
Intel Optane
Kingston

Network Connectivity

Broadcom (FC)
Chelsio (FC, Ethernet)
Edge-Core (Switches)
Intel (Infiniband)
Mellanox (Infiniband, FC, Ethernet)
Myricom

Processors

AMD
Intel

Solid State Drives

Crucial
Intel
Kingston
Micron

Solid State Drives (cont'd)

Samsung
Seagate
Toshiba

Storage Enclosures & Platforms

HGST Storage Platforms
Intel NUC
Promise
Supernano
Western Digital JBOD

Storage Systems & Servers

Dell OEM
HGST ActiveScale
Intel Data Center Blocks
Promise
Quanta Cloud Technology
Seagate Cloud
Supernano

North American Solutions

Strategic Component and Platform Manufacturer Relationships

GCC Optimized Solutions and Market Expertise

- AI & Deep Learning
- Data Management
- Edge Computing
- GPU Compute
- Hadoop
- NFV Infrastructure
- Software-Defined Storage
- Virtualization, VDI
- Bioscience / Life Science
- Broadcast (M & E)
- CCTV Security & Surveillance
- Enterprise, Managed Hosting and Cloud Providers
- Financial Services Industry
- Gaming
- Manufacturing
- Telco

Qualified Hardware for Leading Software Providers

Specialized Purpose-Built Servers & Storage

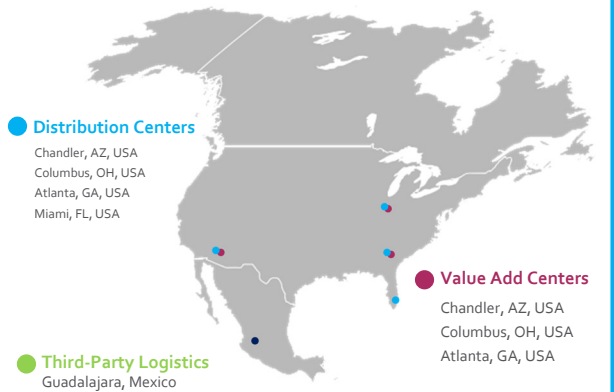

Integration Solutions Capabilities

Global custom support for complex and full service cross-vendor platforms from first article testing to delivery and installation.

- Warehousing
- Assembly
- Integration
- Imaging / Image Management
- Transportation
- Quality Assurance
- Global Capabilities
- State-of-the-art facilities handle large volume and complexity
- Vast product inventory
- Dedicated, skilled professionals
- Rigorous testing standards and quality controls
- Highest solution quality
- Fast turnaround time
- Freight and logistics solutions

North American Integration & Services Facilities
